

Job Title: **Technical Director**

Purpose Statement:

Implement effective use of AVL equipment to support staff/volunteer to advance IHC's mission of inspiring people to find life by following Jesus.

Key Responsibilities:

- **Oversee.** Recruit, train, and lead volunteer teams for our weekly Sunday services in our Main and Studio venues, as well as other ministry events that occur throughout the week. Schedule and equip volunteers to cover all necessary positions and ensure they are prepared for the role.
- **Direct.** Lead and direct technical elements of live events/services and online productions to ensure dependable, high-quality support for the creative vision of IHC's worship experience and related ministries.
- **Implement.** Install and maintain technical equipment across all venues. Conduct routine maintenance when needed and assist other ministries in achieve technical excellence. Advocate for additional resources, as needed.
- **Innovate and make things better.** Develop and implement high-quality, forward-looking solutions within your sphere of responsibilities. Be proactive; be willing to "think outside of the box" to solve problems; consistently contribute your best effort and attitude and inspire others to do the same.
- **Be authentic.** Stay engaged in a personal and growing relationship with Jesus. Demonstrate Inland Hills' core values.

Key Requirements:

- Excellent problem-solving, communication, and collaboration skills
- Demonstrates spiritual depth, maturity, and leadership capability
- A knowledge of current, industry standard, live production technology in the fields of audio, lighting, and video, with 3+ years of work experience specifically in at least one of those areas.
